PROGRAM HIGHLIGHTS . . .

May 27 – What can Reynolda Rotary do to add value to the students that leave Cook School as they go on to middle school? Bill McClain spoke about Youth Crime Watch. YCW is a nationally recognized program – the only one of its kind in North Carolina – that is housed in the offices of the Center for Community Safety. The Youth Crime Watch program has 2 types of programs: school based and community based. North Carolina's program is community based. There are 9 chapters of YCW in our community, but the closest one to Cook School is at Union Baptist Church on Northwest Blvd. Programs such as crime reporting, mentoring, conflict resolution, and drug, violence and crime prevention help young folks make good life choices. If youth don't think they have a future, then they won't think and plan for the future. Youth Crime Watch strengthens anti-crime programs in our schools and community.

June 3- Bernie Mann, publisher of *Our State* magazine was today's speaker. Bernie purchased the magazine seven years ago and moved its headquarters from Charlotte to Greensboro. In just seven years time, the circulation has grown 5x and the number of employees has grown 8x. When Bernie purchased *Our State*, there was virtually no advertisements, was only in black and white, and lots of folks didn't know about the

magazine. Now the renewal rate is 87%, and the tone of the magazine is always positive about North Carolina. As a matter of fact, prospective employees must endure a rigorous interview process to prove they are just as passionate about North Carolina as the magazine is.

POP WARNER FOOTBALL ANYONE?

MIKE SWAIN reports that several of the Cook School 5th grade boys want to play Pop Warner Football. The cost will be approximately \$150 per player, and Mike wants the boys to raise much of their own money. If Mike approaches you to purchase a raffle ticket (with a possible "goodie basket" as the prize), please do so. The money will be going towards a great cause. Also, if you know of any good items that can be donated towards a "raffle package" please let Mike know.

ROTARY TURNS 100. Be sure and read over your recent *Rotarian Magazine*. In it are wonderful articles about how Rotary has evolved during its first 100 years.

Ambassadorial Scholarships

"The world's academic community has learned to appreciate Rotary ideals through the superb quality of Rotary Ambassadorial Scholars."

— Martin Limbird, Director, International Advancement, Ball State University

The Rotary Foundation's oldest and best-known program is Ambassadorial Scholarships. Since 1947 nearly 37,000 men and women from 100 nations have studied abroad under its auspices. Today it is the world's largest privately funded international scholarships program. More than 1,000 scholarships were awarded for study in 2003-04. Through grants totaling approximately US\$428 million, recipients from some 70 countries studied in more than 70 nations.

The purpose of the Ambassadorial Scholarships program is to further international understanding and friendly relations among people of different countries. The program sponsors several types of scholarships for undergraduate and graduate students as well as for qualified professionals pursuing vocational studies. While abroad, scholars serve as ambassadors of goodwill to the people of the host country and give presentations about their homelands to Rotary clubs and other groups. Upon returning home, scholars share with Rotarians and others the experiences that led to greater understanding of their host countries.

Generous contributions from Rotarians worldwide represent continued faith that the students who are Ambassadorial Scholars today will be tomorrow's community and world leaders.
